CAROLINA BLUE AND WHITE

Carolina's school colors, light blue and white, are a symbol of unity among Carolina students, alumni and fans alike. But they began as emblems of factional division between the members of the Dialectic and Philanthropic Literary Societies around 1800.

The Dialectic Society, it appears, decided to put blue ribbons on its diplomas, which were given to graduates in addition to their regular University diplomas. In addition to blue standing for honor, blue ribbons were the universal symbol of excellence in agricultural regions like North Carolina. The Di Society prided itself on its excellence. The Philanthropic Society, always looking for an advantage over its older rival, chose white ribbons—indicative of truth and virtue—for its diplomas. As the 19th Century wore on, these colors became synonymous with the two Societies, such that in 1893-94 their members put out a newspaper called *The White and Blue*.

A special problem was presented when Commencement became an important social event. Both Societies chose Commencement ball managers and dressed them in the color of their Society, but as time went on the students felt a need to show unity above and beyond their disputes and debates. So the managers all began wearing badges with both Societies' colors on them.

When intercollegiate football began in the 1880's, the team members noticed the school colors worn by schools like Virginia (orange and blue) or Wake Forest (black and gold). They wanted similar identification as Carolina students. Quite naturally, they adopted the managers' badge motif for it signified that students from both the Di and Phi (and every student was in one or the other at this time) were on the team and supported it to victory.

The Societies lost their exclusive prerogative (ability to compel students to join) around 1891, and after 1916 they became weakened and small. As a result, the colors blue and white became known to most people as "Carolina blue and white," without any reference to the Societies. Yet the colors still fulfill the purpose of unifying the students, both in terms of athletics and as general symbols of the University.

It is most ironic, but thousands of people who have never heard of Carolina's rich traditions recognize these two colors as standing for the University, paying posthumous honor to those students who merely wanted to designate the difference between the Di's and Phi's 180 years ago.

THE ACADEMIC PROCESSION

For the benefit of our visitors the following information digested from "An Academic Costume Code and Ceremony Guide" prepared by the American Council on Education, may prove helpful in identifying the costumes you will see in the Commencement Procession.

The history of academic dress reaches far back into the earliest days of the oldest universities. A statute of 1321 required that all "Doctors, Licentiates, and Bachelors" of the University of Coimbra wear gowns. In England, in the second half of the 14th century, the statutes of certain colleges prescribed the wearing of a long gown. When American colleges and universities desired to adopt some suitable system of academic apparel, a conference held at Columbia University in 1895, made up of representatives from various institutions drew up a "By-Law, Regulation, or Statute" for the establishment of a suitable code of academic dress for colleges and universities in the United States. This code, with modifications made in 1959 by The committee on Academic Costumes and Ceremonies of The American Council on Education, is still in force; the costumes and colors, trimmings, and patterns you will see are all traditional, and interpret both the degree and field of learning. The bachelor's gown, designed to be worn closed, has pointed sleeves, the master's gown, which may be worn open or closed, has an oblong sleeve open at the wrist which hangs down in the traditional manner. The rear part of its oblong shape is square cut and the front part has the arc cut away. The doctor's gown has bell-shaped sleeves. It may be worn open or closed.

Black is the recommended color for all academic gowns. Bachelor's and master's gowns are untrimmed. Doctor's gowns are faced with black velvet, with three bars across the sleeves; or the color of the velvet may be that which is distinctive to the degree, agreeing with that of the edging of the hood. The colors you will see in the hoods and gowns of our faculty represent the various fields in which the degrees were taken:

Apricot:	Nursing	Olive-Green:	Pharmacy
Brown:	Fine Arts	Orange:	Engineering
Citron:	Social Work	Pink:	Music
Crimson:	Journalism	Purple:	Law
Dark Blue:	Philosophy	Sage Green:	Physical Education
Golden Yellow:	Science	Salmon Pink:	Public Health
Green:	Medicine	Scarlet:	Theology
Lemon-Yellow:	Library Science	Yellow-Brown:	Commerce, Business, Accountancy
Light Blue	Education	White:	Arts, Letters, Humanities
Lilac:	Dentistry		

The hoods, differing in length for the three degrees, bachelor's, master's, and doctor's, are lined with the official colors of the university or college conferring the degree, usually with one color forming a chevron pattern over the other. Hoods are edged and bound with velvet of the color appropriate for the degree. You will see in our procession many edged with dark blue, for doctor of philosophy.

Mortarboards are the approved headgear. The tassel, worn on the left side of the cap, may be of gold if the holder has a doctor's degree.

The procession follows a traditional order: first come the speakers, trustees, administrative officers, candidates for honorary degrees, and other members of the platform party: next, the faculty; and finally the candidates for degrees, arranged in the order in which the degrees are to be conferred.
